

Philosophy of SCS Academic Learning Support

A desire of Sanborn Christian School is to help Christian parents train each child to be responsible and unique under the Lordship of Christ and to also use all of his/her God given talents and gifts for God's glory. Our academic learning support department evaluates students who may struggle in school to find their weaknesses as well as their strengths and then find ways to teach that will best meet their needs.

God has created each of us in His image and for his purpose. Our academic learning support department assists each child that is worked with in recognizing his/her gifts and to help the child develop them so he/she can best serve his/her Creator.

Academic learning support activities may include working in small groups, or individually, to help students in advancing their knowledge of letters, sounds, phonics, sight words, penmanship, math, and oral reading, etc.
